This page will guide you in registering your computer to the college "wired" network.

1. Plug your computer to the ethernet socket in your room using an ethernet cable. Open your internet browser and go to any website, it should redirect to our registration page (shown below).

   **First option:**
   This will enable you to collect your account details (user-id and passwords) for University services including Raven.

   **Second option:**
   This will take you to the actual registration process providing you already have your Raven account details.

2. After you have selected the second option, you will be redirected to the Raven login page. Enter your user-id and password.
3. Once you have successfully logged in, you will come to this page. Press "Click here to submit new registration application".

4. Confirm your registration by clicking "CLICK HERE TO APPLY".

5. Select the options which match your computer.
   NOTE: Please do not edit the "Location" option as it is automatically generated.
6. Read the rules and information given carefully. Then press Submit Application.

7. You will be provided with a summary of your registration.
8. At this stage please wait while the system registers your computer to our network. It may take a few minutes so please be patient. Once it is done, you will see a confirmation page to verify your registration is complete.
